A TELEPHONE CALL

It was 10 o'clock at night. I was sitting in an easy chair in my bedroom reading and smoking when I heard a ring at the telephone bell in the hall. | the telephone-showed great presence Going the . I took up the receiver and placed it at my ear. I heard a remarkable confusion of sounds. The meaker at the phone was a woman. but there were others in the room, one of whom, a man, was shouting wildly. It was difficult to distinguish what the woman at the receiver was saying on account of the other voices, especially the shouter. I will give my dialogue over the phone as well as I can, with Its interruptions:

Voice at Transmitter-Oh, my goodness gracious! He's slashing right and left! He's going to kill us all!

Hold on there! Save that gun! Good! Never mind-

I asked again and again for an address and finally got 175 Wash-Man's Voice (not at transmitter)-Remember, men, that you are Cana-

Voice at Transmitter-Oh, horrors! I hung up the receiver, waited a few seconds, took it up again and called a cab-to come in a hurry. Then I went downstairs and out, walking in the direction from which I expected it. Seeing a vehicle coming at a gallop, I headed it off, got in and told the driver to take me to 175 Washington avenue. There was a Washington street in the city, but the voices I had heard came from refined persons, and Washington

horse to move. I suppose we were ten minutes in making the distance. As soon as we reached the house I told the policeman that he would be expected to tackle an armed lunatic. He demurred, saying that he must telephone for assistance, and went off to a call box. I did not propose to wait for him and, going up the steps of a stone front house, rang

While I waited for assistance I heard sounds in the second story as I had heard them over the phone and above the din the lunatic's voice shouting:

"Line up there, men! Come on, you fellows, and fill these gaps! Now altogether! Forward!"

The front door was opened, and a young woman as white as a cloth appeared

"I'm the party you got on the"-My explanation was interrupted by sounds of steel slashing wood and the shricks of women above. The girl, without a word, led me upstairs. While ascending I determined upon a plan of action. Whether it would avail anything I did not know. On reaching the upper hall I found a girl crouching. The door of a bedroom was wide open,
